PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in data engineering, AI/ML development, and business intelligence. Skilled in processing and validating large-scale datasets, building predictive models, and designing interactive dashboards to drive data-driven insights. Proven ability to work across the data stack — from data modeling to analytics — using SQL, Spark, and cloud platforms. Seeking a Software Engineer role.

WORK EXPERIENCES

Associate Software Engineer | Full-time
Dec 2025 - Present
MAQ Software
On-site • Noida, Uttar Pradesh

- Developed and implemented AIML algorithms for predictive and analytical solutions, improving **prediction accuracy by 20%**.
- Designed and managed **10+ interactive dashboards** and reports using Power BI for business insights.
- Processed and validated **100M+ row datasets** using SQL (joins, aggregations, CTEs) and Spark notebooks across a Lakehouse architecture, applying data validation checks and structured data modeling techniques.
- Utilized **Microsoft Fabric** for end-to-end data integration and analytics workflows.

Technologies / Skills Used : *AIML, Power BI, Azure, Microsoft Fabric*

Web Developer Intern | Internship
Dec 2024 - Feb 2025
TechOctanet Pvt. Ltd.
Remote

- Developed and maintained **100% responsive web applications** to improve user engagement.
- Enhanced user experience by implementing **dynamically rendered components with React**.
- Designed and optimized user interfaces to ensure **cross-browser compatibility**.
- Built reusable frontend components to ensure consistency and **faster development**.

Technologies / Skills Used : *React, HTML, CSS*

PROJECTS

Tripzz Cab Booking System | Github

- **Built a full-stack cab booking platform** using **Spring Boot** (backend) and **React.js** (frontend)
- Implemented **RESTful APIs** for ride booking, driver assignment, and live location updates
- Integrated **OSRM** for route calculation and ETA prediction, and **React Leaflet** for interactive maps

Technologies / Tools Used : *Spring Boot, React.js, OSRM, React Leaflet*

NewsHub : A News Portal

- **Designed and implemented device friendly news web page** using **JavaScript**, **HTML**, **CSS**, and API integration
- Integrated real-time news fetching from public APIs to deliver up-to-date content dynamically
- Enhanced functionality with **JavaScript** for seamless navigation, content filtering, and user interactions

Technologies / Tools Used : *JavaScript, HTML, CSS*

SKILLS

Databases :	MySQL
Frameworks & Libraries :	React, Springboot, Bootstrap
Programming Languages :	Java, JavaScript, Python
Core Concepts :	Data Structures & Algorithms, Time Management, Teamwork
Tools & Platforms :	PowerBI, Azure, Microsoft Fabric, Github

EDUCATIONS

Chandigarh University | Chandigarh
Aug. 2022 - 2026
Bachelor of Engineering- CSE
Percentage : 81.90%

S.K.D. Academy | Lucknow
2021 - 2022
Intermediate
CGPA : 93.20%

S.K.D Academy | Lucknow
2019 - 2020
Matriculation
Percentage : 89.33%

AWARDS & ACHIEVEMENTS

- Scored **92** in **Coding Bootcamp of Advance Credit Bootcamp**, Chandigarh University, 2022 (Link)
- Solved **500+** problems on different coding platforms. (Link)
- Participated in **Build with India Hackathon** organised by Hack with India, 2024 (Link)
- Gained hands-on experience in **30 days Inhouse Summer Training** on **ReactJS** (Link)
